BIG WHITE ELEPHANT

May the Philippines Finally Prove to Be.

PECULIAR QUESTIONS ARISE.

Uncle Sam Must Restrain Rebels In All the Islands.

THIS WILL BE A HERCULEAN TASK

It Is Claimed That This Must Be Done Because All Spain's Means of Resisting Their Attacks Have Been Destroyed by the Yankees.

Washington, Aug. 4.—An interesting question and one of vital importance to the administration is the attitude to be assumed by the United States toward the Philippine insurgents in the event that we reach an agreement for the suspension of hostilities with Spain.

It is stipulated in our peace terms that the United States military forces shall occupy and establish a military form of government over the city of Manila and the bay with surrounding territory.

This involves an immediate surrender of the Spanish forces, not to Aguinaldo, but to General Merritt, and there is some apprehension that the insurgents will resent this very bitterly, and it will be necessary to expel them forcibly from the territory desired.

Beyond this, it is said in some quarters that pending the decision of the peace commissioners as to the future of the Philippines the United States will be morally bound to maintain the statu quo in the islands at large.

In other words, having deprived Spain of the means of resisting the onslaughts of the insurgents it has been urged that the United States would be bound to prevent the latter from continuing their warfare.

There is a lack of information in Washington on many important points as to the conditions of the Philippines. For instance, it is not known even approximately how extensive the revolutionary movement has been throughout the vast group of 1,200 islands and among the large population, estimated to aggregate between 8,000,000 and 15,000,000.

If the revolutionary movement is general and extends to very many of the islands the task presented to the United States military and naval authorities will be one of great magnitude in the event that it is decided to be incumbent upon us not to restore Spanish rule.

No Conclusion Reached. Washington, Aug. 4.—After a conference on the peace question lasting just an hour between the president and M. Cambon, the French ambassador, the latter acting as the representative of Spain, Secretary Day emerged from the White House and announced that the conference was inconclusive; wherefore the parties to it had agreed to say nothing publicly as to what had occurred.

Seeking Her Release. Washington, Aug. 4.—Some weeks ago a United States warship captured the French merchant steamer Glinde Rodriguez when she was nine miles off San Juan. It was claimed she was running the blockade, and she was taken to Charleston, S. C., where she is still detained with a number of passengers, freight, and with the official mail of the French minister at Port-au-Prince. Both the French embassy and the French Transatlantic Steamship company asked for the release of the steamer on the ground that she was not running the blockade. The department of justice has been considering the subject and the prospects are for a satisfactory adjustment and a release of the steamer, if no claims for detention are made. M. Cambon called at the state department on the matter.

Troops Ordered Home.

Washington, Aug. 4.—All troops of cavalry with Shafter's army and eight companies of Roosevelt's rough riders have been ordered to proceed to Montauk Point, L. I., for encampment. General Shafter had been directed to use all the transport facilities he can command and to send troops north as rapidly as possible. The regular cavalry with Shafter comprises eight companies each of the First, Third, Sixth

Ninth and Tenth cavalry, all dismounted, and four mounted troops of the Second cavalry.

General Poland Ill.

Chickamauga, Ga., Aug. 4.—Brigadier General J. S. Poland, who has been seriously ill for the past several weeks, has been taken to Asheville, N. C. It is hoped he will regain his health in a short time and be able to resume command of the Second division, First Army corps. It is said that General McKee will be placed in temporary charge.

It May Require Months.

Washington, Aug. 4.—On the assumption that peace is near at hand some attention is being given to the steps by which this may be brought about formally and the measures necessary to be adopted immediately afterwards. It is said to be not at all improbable that the preliminaries leading up to the signature of the treaty of peace may consume fully three months, so that it may be well along toward the legal date of the assembly of congress before the president will be prepared to submit a peace treaty to the senate. This allowance of time is rather moderate than excessive. We were two years, from 1781 to 1783, in arranging a peace with Great Britain to terminate the revolutionary war. In the case of the Chinese-Japanese war it was several months before the commissioners were able to perfect the treaty which terminated that war.

Captain Alger Ordered Home.

Washington, Aug. 4.—Captain Frederick M. Alger, son of the secretary of war, who has been on duty in the campaign against Santiago, has been ordered home because of disability. Through some accident the captain sustained a severe wrench of one of his knees, which will necessitate it being put into a plaster cast for successful treatment. The secretary's son had suffered several accidents to the same knee during the past two years. In one case the jib boom of a ship striking and painfully wounding it.

Changing Their Camps.

Chickamauga, Ga., Aug. 4.—The continuous rain of the past 10 days at Camp Thomas has resulted in a general desire to change camps, and the regiments are, as rapidly as they can get permission, moving their camps to new locations. The dampness of the wooded territory has made the open fields look quite inviting, and the result is that already a number of regiments, including the cavalry, have pitched their tents in the open fields, and now have the full benefit of a generous sunshine.

Rivalry Among Regiments.

Washington, Aug. 4.—The rivalry among the regiments remaining here to be included in the next order to move is becoming highly interesting. The officers of each regiment are bringing all possible pressure to bear on the war department, and the officials will doubtless have much trouble in making their selections. Senators, representatives and others who are supposed to have influence with the war department are being called upon to help the regiments of their states.

To Enlist Hawaiians.

San Francisco, Aug. 4.—General Merriam, commanding the department of California, has received the following dispatch from Adjutant General Corbin: "The president directs that if any of the military forces of the Hawaiian islands desire to become a part of your volunteer army that you are authorized to organize not to exceed one battalion of infantry, naming the officers and men to be mustered into the service, and have them report to Colonel Barber for duty."

The Sick Are Improving.

New York, Aug. 4.—None of the 200 sick and wounded soldiers distributed among the different hospitals on Staten Island is in danger of death at the present time, although some are not out of danger. The men who arrived in the Seneca are the most improved, for they have been on Staten Island for two weeks, and during that time they have had the best medical treatment. Most of the Conchos sick are suffering from malarial fever.

Vessels to Be Retained.

Washington, Aug. 4.—It has been finally determined the cruisers Yae and Howard, chartered by the navy from the American Steamship company for auxiliary naval purposes, shall remain in the possession of that department, however, has no further necessity for these vessels, but they will be loaned to the war department, which will bear the expense incidental to their charter and use. The vessels will be manned and officered by the navy.

Fifth Illinois Departs.

Chickamauga, Ga., Aug. 4.—The Fifth Illinois infantry, after numerous disappointments, finally got away towards the scene of action. At 4:30 a.

m. the regiment broke camp and marched nine miles to Ringgold, Ga., where trains were in waiting to convey it to Newport News. The loading was done rapidly, and before noon the last of the trains had pulled out.

The Texas Dry Docked.

New York, Aug. 4.—The battleship Texas was placed in drydock at the navy yard. An examination of her shows that except for a slight dent in her keel, made by striking a coral reef off Dry Tortugas, she is in very fair condition. It is thought the Texas will remain at the navy yard for about a month.

Treated Humanely.

Washington, Aug. 4.—The state department has been advised by Consul Wildman at Mengkong that all prisoners taken by Aguinaldo, the insurgent chief, including monks, are "treated with perfect humanity," and that all reports to the contrary are absolutely false.

First Ohio Cavalry In Luck.

Washington, Aug. 4.—The First Ohio cavalry now at Tampa will form a part of the next expedition to be sent to the assistance of General Miles in Porto Rico.

Peculiar Circumstances.

New York, Aug. 4.—When the transport Breakwater returned to this city from Santiago the army officers of the Department of the East were surprised to find that thousands of pounds of food which had been sent south had never been unloaded from the vessel and was still in the hold. A board of survey was appointed by Colonel Gillespie, commander of the Department of the East, to determine for whom the stores had been intended and why they were not unloaded. This board has reported that the stores were not unloaded because there was immediate need of the vessel to transport the sick and wounded. The board declares that it is unable to fix the responsibility for the failure to unload the supplies.

General Randall In Command.

Washington, Aug. 4.—Brigadier General G. M. Randall, recently promoted from lieutenant colonel of the Eighth infantry, was ordered to assume command of the new camp to be established at Montauk Point, L. I., for the benefit of the troops to be recalled from duty in the province of Santiago, Cuba.

Sagasta Wants Advice.

Madrid, Aug. 4.—Premier Sagasta has summoned Senor Silvela, the Conservative leader, and other absent politicians to Madrid, in order to consult with them regarding the peace terms.

Carlists Are Arising.

London, Aug. 4.—A special dispatch from Barcelona says a formidable rising of Carlists has taken place near Lorida, Catalonia.

Value of the X-Ray.

Chicago, Aug. 4.—Little Frances Nelson, 1½, daughter of O. Nelson, a merchant of Schlessingerville, Wis., swallowed a hat pin 6½ inches long. The child was taken to a Roentgen laboratory, where a photograph of the stomach was taken. There, plainly enough, was to be seen the missing article. The glass head was downward, and the action of the stomach in its work of digestion had kept it up to the top of that organ. The point extended up about four inches in the esophagus. The little child was conveyed to a hospital, where the obstruction was removed by a simple operation.

Crooked Work Unearthed.

Washington, Aug. 4.—Assistant Secretary Vanderlip is now sending to subscribers about \$400 bonds a day, and this number will be increased later on. Recently notices of all those who have been sent to a number of people who had subscribed and forwarded the required cash, but who now deny all knowledge of the transaction. The indications are that their names have been used with a view to getting possession of the bonds in violation of the spirit of the law.

Desperate Stampede Begun.

Victoria, B. C., Aug. 4.—Word came from the north of a desperate stampede from the Copper river country to the coast, the statement being made that 3,000 men are making their way over the Valdez glacier, and that many of them are doomed to starvation unless the United States government sends relief promptly.

Philadelphia, Aug. 4.—Peter Schall, aged 28 years, was drowned in the cellar of his home during a severe storm. He was working in the cellar removing some of his property, when he was caught by a sudden rise in the water.

Wrecked By a Cyclone.

Valencia, Spain, Aug. 4.—The village of Mediana has been wrecked by a cyclone, which killed many persons. Several houses at Horafios have been engulfed by the floods and a number of people have perished.

FUSION FORCES

Succeed in Naming a Ticket Which Is Strongly Populist.

Lincoln, Neb., Aug. 4.—The fusion forces of Nebraska selected a full ticket after 24 hours deliberation with William A. Poynter of Boone county for governor.

All are Populists but the lieutenant governor, who is a free silver Republican, and the attorney general, a Democrat.

The Democrats sent the following telegram to Colonel W. J. Bryan, Jacksonville, Fla.:

"The Democrats of Nebraska, in convention assembled instruct me to send hearty greeting and pledge the united efforts to make the gallant colonel of the Third the future commander-in-chief."

The platform adopted by the Populists does not differ greatly on the leading planks from that of the Democrats.

Jernegan Is Missing.

Paris, Aug. 4.—The police here have thus far received no instructions relative to the arrest of the Rev. F. F. Jernegan of the Electrolytic Marine Salts company of Boston, Mass., who is wanted in that city on the charge of obtaining money under false pretences. The Rev. Mr. Jernegan arrived at Havre on Monday on board the French line steamer Navarre and mysteriously disappeared from the train on which he started for this city.

A New Whisky Trust.

Cincinnati, Aug. 4.—The United States Spirits association was permanently organized here by the election of the following seven members of the executive committee: Chairman, W. N. Hobart, Cincinnati; secretary, J. Walter Freiberg, Cincinnati; treasurer, F. T. Corning, Peoria, Ill.; P. J. Hennessey, Chicago; Samuel Wodner, New York; Frank Curtiss, New York; Charles A. Webb, New York.

Very Good Showing.

Chicago, Aug. 4.—The net income of the Rock Island road for the month of June was \$338,784, an increase of \$6,486 over the net income for the same month of the preceding year. For the three months to June 30, the net income of the road has been \$1,335,022, an increase of \$360,723 over the same period of the preceding fiscal year.

The Rails Spread.

Bucyrus, O., Aug. 4.—Thirty-eight cars on the Columbus and Sandusky Short line were piled up, six miles north of here, by spreading rails. Excursions trains and regular passenger trains were sent around by way of Mansfield and Carrothers.

ABSOLUTE POSSESSION

Must Be Taken of Porto Rico by United States.

SO SAYS SENATOR BURROWS

He Does Not Believe We Want All of the Philippine Islands, but Should at Least Have the Best One in the Group.

Washington, Aug. 4.—Senator Burrows of Michigan said that he had no means of judging what would be the prevailing sentiment of the senate as to the treaty of peace, as he had had no conversation with any of his colleagues on the subject recently.

As for myself, I don't care to go very deeply into a discussion of the subject at this time, but in general terms I take this view of it:

We must have absolute possession of Porto Rico, and Spain must relinquish completely her sovereignty over Cuba. We should retain permanently the island of Porto Rico. Toward Cuba we will act in good faith and with perfect justice, giving to the people of the island a free and independent government as soon as it can be established.

We must see to it that a good and stable government is established, and of course the future will depend upon the ability of the people of Cuba to govern themselves, the United States giving them all possible assistance and every opportunity to maintain themselves as a free and independent people.

As to the Philippines, I do not believe that we want the entire group of islands, with its several millions of semi-barbarous people. In my opinion we should retain one entire island—the best in the whole group—for our purposes, absolutely as our own, as a naval station and commercial base.

Our ownership of the entire island should be absolutely complete, with no vestige of Spanish influence anywhere upon it. This would give us all we want for the development and protection of our commerce. The rest of the group of islands might go back to Spain or the people might be left to work out their own destiny.

The question of just how far this government should exert itself in the matter of securing good government for the islands which we do not retain is a matter of detail for the future; the only thing that I care to say on that point is that I do not think this government should retain control or interest in the rest of the islands after having taken possession of the one we want.

LARGEST WHALEBACK

Will Soon Make Her Maiden Trip Down the Lakes.

West Superior, Wis., Aug. 4.—The largest whaleback ever built, the steamer Alexander McDougall, has left the slip at the barge works and gone to the Mesabie ore docks to load with 6,000 tons of ore for her maiden trip down the great lakes.

Captain McDougall, the inventor of the whaleback, is of the opinion that such boats will be soon going direct from Superior to Europe.

He says: "Next year the new Canadian canal will be opened and it will offer a broader field for lake carriers."

Claim Will Be Paid.

Bogota, Colombia, Aug. 4.—The congress of the republic of Colombia has unanimously resolved to deposit a sum equal to £60,000 (\$300,000) as security for the amount due the heirs of Signor Cerruti, the Italian subject whose claims against the government of Colombia were decided in his favor by President Cleveland as arbitrator.

To Enlarge the Treaty.

Paris, Aug. 4.—The Temps says the United States has notified the French minister for foreign affairs, M. Delcasse, that she desires to enlarge the reciprocity treaty by including new products. France, the paper adds, has accepted the suggestion and the negotiations on the subject will be opened.

THE fruits of the grand victories won by our navy and army must not be frittered away by the Administration, says the Cincinnati Post. No concessions to Spain; she deserves none.

GOVERNOR BRADLEY and his Assistant Adjutant General do not seem so anxious now as they were a few weeks ago for an inquiry into Colonel Castleman's charges. The Governor has notified the Board of Inquiry "to let the matter rest for the present."

THE sentiment of the country is unquestionably opposed to returning the Philippines to Spain. Those islands have suffered as much through her misrule as Cuba, and she should be driven from them forever, whether this country retains them or not.

ALL Europe is amazed at the corruption in London commercial circles brought out by the failure of Hooley, the corporations promoter. His confessions show that many in the ranks of the "nobility" of England have accepted money in return for the use of their names in promoting his schemes. Hooley characterizes some of the Earls and Lords as "the greatest blackmailers in London." But the "blackmailers" and rascals are not all confined to England. There are just as many disreputable schemes worked in this country, and in just as disreputable a manner.

THE CONGRESSIONAL RACE.

Praise From the Press For Mason County's Choice For the Democratic Nomination.

The Cynthiana Times is a strong Kehoe advocate in the Democratic race for the Congressional nomination. It says: "In the proper place in this issue of the Times will be found the announcement of Hon. James N. Kehoe, of Maysville, as a candidate for the Democratic Congressional nomination. He was here a few days last week and says he will surely win if nominated. This is timber we want—one that can use his mouth organ to a good advantage, not afraid and a self-made man. The cause of Rolla Hart's defeat was the fact that he was not an orator. It takes a man like Kehoe who is a good orator, up-to-date and quick as lightning, to win in these parts. He fills the bill."

Franklin (Ky.) Favorite: "Mr. James N. Kehoe, of Maysville, Mason County, has announced his candidacy for the Congressional nomination in the Ninth district. Mr. Kehoe is a young man about thirty-five years of age, a lawyer by profession, of more than twelve years practice, and has been Chairman of the County and District Democratic Committees a number of years. Mr. Kehoe has always been an active Democrat, and on every and all occasions has rallied to the assistance of his party. He is a fine speaker and an able lawyer, and his long and efficient service in the interest of his party merits recognition at the hands of the voters of his district. He would be a credit not only to his district, but to the State at large, should he be selected as the custodian of their interests in the House of Representatives."

Paris Editors Wined. Paris, Aug. 4.—The libel action of M. Emile Zola against The Petit Journal has resulted in a fine of 2,000 francs upon M. Judet, the editor, and of 500 francs each upon his two assistants. The three were mulcted in 5,000 francs each as damages. On leaving the courtroom the editors were loudly cheered, and a man who cried "Vive Zola!" was chased and narrowly escaped death at the hands of the angry crowd.

Secure good health, and you will surely have good looks. "Electric Bitters" is a good Alternative and Tonic. Acts directly on the stomach, liver and kidneys. Purifies the blood, cures pimples, blotches and boils, and give a good complexion. Every bottle guaranteed. Sold at J. J. Wood & Son's drug store. Fifty cents per bottle.

THEATRICAL COMPANIES.

Managers Are Greatly Worried Over the New War Tax—Some Knotty Points.

[Lexington Herald.]

If the Attorney General of the United States construes the clauses of the new war tax, as far as they relate to the theatrical business, and many of them seem to think he will, at least eight-tenths of the companies now routed for tours of the country will go out of business.

The matter that managers of road shows are worried about is whether they will have to pay \$10 for each State they play in or \$100, and nobody seems to know just what sum they will be taxed. Another knotty problem is whether they will be allowed to pay pro rata, or fractional license if they only play one night in a State, or if they will have to pay for the year.

Many managers have decided that in cities of over 25,000 inhabitants, the theater will have to pay the license, and that traveling companies will be exempt, and have, therefore, cancelled all dates in towns under 25,000 population.

The whole matter is in a very unsettled and unsatisfactory condition, and can not be set right until some special and definite interpretation of the law comes from Washington.

So far all that is authoritative about the workings of the law is that no stamps are necessary on either sharing or engagement contracts, and that theaters opening any time after July 1st will not be compelled to pay the full license of \$100, but only from the date of opening. Therefore, a theatre opening October 1st will only have to pay for eight months, or \$83.33.

Section 2 of the law, which went into effect July 1st, read as follows:

"From and after July 1st, 1898, special taxes shall be and hereby are imposed annually as follows:

"Section 6. Proprietors of theaters, museums and concert halls in cities having more than 25,000 population, as shown by the last preceding United States census, shall pay \$100.

"Section 8. Proprietors or agents of all other public exhibitions or shows for money not enumerated in this section shall pay \$10; provided, That a special tax paid in one State, territory or the District of Columbia shall not exempt exhibitions from the tax in another State, territory or the District of Columbia, and but one special tax shall be required for exhibitions within any one State, territory or the District of Columbia."

The first test case came up in Chicago a few days ago, when Lincoln J. Carter's agent offered United States Collector Coyne \$10 for a license enabling his manager to take ten shows into forty-four States for fifty-two weeks. Collector Coyne, having been instructed, refused the \$10 on the ground that the license for each State was \$100 for each and every dramatic company.

Carter's agent argued that proprietors of theatrical companies should come under Paragraph 8, but Collector Coyne produced United States Revenue Collector Scott's most recent ruling (19,602) under date of June 28th, which says: "The special tax imposed in Paragraph 7 of Section 2 of the act of June 13, 1898, applies to a small theatrical company as well as a circus or other exhibition especially referred to, and not enumerated in Paragraph 8."

ENORMOUS

Are the Profits of the Westinghouse Air Brake Company—Dividends of 150 Per Cent. the Past Year.

[Pittsburg Post.]

The Board of Directors of the Westinghouse Air Brake Company at the general office at Wilmerding have declared a stock dividend of 100 per cent., amounting to \$5,000,000, and transferred to the treasury the sum of \$1,000,000 in stock to be issued by the directors from time to time for the purchase of property or other uses as may be deemed best by the board. This enormous dividend is in addition to a cash dividend of 50 per cent., or \$2,500,000, declared within the past year. America is full of rich men, rich corporations and companies that make tremendous profits, but no corporation or firm in the world has ever made the enormous profit that has this association of men during the past twelve months. At the meeting 82,994 shares of stock out of 100,000 were represented. The meeting was a brief one, and it took the board but a few minutes to make the distribution of the \$5,000,000 in stock. It was done by virtue of the following resolution, which was presented and passed:

Resolved, That of the 120,000 shares (\$6,000,000) of new capital stock authorized by this meeting, the stockholders recommend that the Board of Directors should distribute 100,000 shares, that is \$5,000,000 par, to the stockholders as a stock dividend out of the surplus earnings of the company not heretofore divided among the stockholders, and that the remaining 20,000 shares (\$1,000,000) remain in the treasury and be issued by the Board of Directors from time to time for the purchase of property upon such terms and in such manner as they shall deem for the best interest of the company.

The net earnings of the company for the past ten years are stated to be \$17,500,000, of which the cash dividends have been \$14,500,000. The stock dividend will be distributed as soon as the necessary certificates can be prepared.

THE Labor Department at Washington is investigating the economic aspect of the liquor question. Circulars were sent out to 30,000 employers asking whether they encountered any trouble on account of intemperance, and what they did to counteract its effect. Seventy-five per cent. answered that they hired no man until they discovered whether or not he was addicted to the use of liquor. This was necessary in order to provide against accidents and general unreliability.

Neither gets the out of doors exercise he needs, neither takes the proper time for eating. It is small wonder that the digestion of both get out of order. In such cases Dr. Pierce's Pleasant Pellets come to their assistance by aiding nature in taking care of the food.

THE cause of nine-tenths of the sickness of the world is constipation. From this one cause come indigestion; disorders of the stomach, liver and kidney; biliousness, headaches, flatulence, heartburn, impurities of the blood and the serious complications that follow. To begin with, constipation is a little thing, and a little thing will cure it. The "Pleasant Pellets" are tiny, sugar-coated granules. They will perfectly cure the worse case of constipation and indigestion. If the druggist tries to sell you some other pill that pays him greater profit, just think of what will best pay you.

IN MEMORIAM.

Died, July 30th, '98, at the home of Mr. and Mrs. E. D. Pickett, their infant son, Benjamin Allen, aged three months. Another bud has been plucked from the parent stem to blossom in the purer atmosphere of the Hereafter, and while the fond wish of the loving parent heart was to retain it here, to bless and brighten the earthly home, yet the Master's words, "Suffer little children to come unto me," have again been obeyed, and another jewel has been added to the diadem of heavenly purity. No sweeter, lovelier flower ever graced and blessed our earth than the sweet little spirit that has just entered the Edenic bowers. It is not in the power of words to describe the sorrow and loneliness of the hearts of the devoted mother and father, who have been so sadly bereft. They cannot now understand these inscrutable laws of the divine will, yet there must be some wise, good purpose in them all, and the memory of—
This little human blossom bright,
Of childish, innocent delight,
Will make sweeter and tenderer, the coming years of their lives—
Always forming a harmony sublime;
Floating o'er the waves of time.

HOW THE STATE WAS GOUGED.

Contractor Martin Had a Good Thing Buying Chairs at Frankfort.

FRANKFORT, KY., Aug. 2.—The auction sale of damaged chairs, held at the Frankfort penitentiary, afforded striking proof for the charge that the Republican Prison Commissioners, in dealing with Martin, have allowed him to get the best of the State to the tune of from \$50,000 to \$100,000 annually.

The sale held last week was of such chairs as were damaged and as the Republican Commissioners decided were unsalable, but notwithstanding this fact the prices at auction ranged about one-third higher than Martin pays the State for perfect goods. A striking case in point in that of No. 543, for which Martin pays the State \$4.05, which style at auction, damaged as they were, brought \$5.25, or nearly 30 per cent. more. This is the style of which Martin makes the greatest number.

ELKS WILL ENTERTAIN

Visiting Herd Will Not Suffer In Indianapolis.

MANY OF THEM KNIGHTS.

It Is Probable That a "Social Season" Will Be Held For the Purpose of Making Everybody Feel Perfectly at Home.

Indianapolis, Aug. 4.—Indianapolis Lodge No. 13, Benevolent and Protective Order of Elks, is making arrangements to take hands-on care of visiting Elks who attend the biennial encampment of the Uniform Rank, Knights of Pythias, to be held here during the week of Aug. 22.

Many members of the Knights of Pythias are also Elks. It is believed that at least 1,000 Elks will be here. The local lodge is preparing to hold a "social season" on the evening of Tuesday, Aug. 25, and has appointed a committee to carry out the plan for the entertainment of visitors.

Circulars have been sent to all the members of the lodge urging them to be present. The committee is composed of S. M. Crawford, M. W. Williams, S. Muster, William Kottman and H. S. Beisenherz.

It is expected that Grand Exalted Ruler John Galvin and Grand Secretary George A. Reynolds will be present, as well as a number of grand officers from other states.

An Important Find.

Paris, Ky., Aug. 4.—After an extensive search, covering over eight months, Dr. W. H. Current of this city has found a lease in favor of the Jarvis heirs of Rowan county, covering title to about 80 acres of land in the central and eastern part of Cincinnati, supposed to be new worth at least \$10,000,000. Dr. Current has power of attorney to either sue or compromise, and is to have one-half of the estate for his services. He has engaged the best legal talent in Cincinnati to prosecute the case, and will begin at once, as his attorneys say they have a sure case.

Gold Standard Favored.

Indianapolis, Aug. 4.—The Republican state convention platform goes a step farther than the St. Louis platform by advocating the gold standard. It favors a new primary election law, advocates a vigorous foreign policy, but does not particularize on this point. The state and national administrations are warmly endorsed, and the labor arbitration law and Mull law, passed by the last legislature, are commended.

Engineer Killed.

Tipton, Ind., Aug. 4.—A. E. Bennett, 48, with his home at Jeffersonville, engineer on the southbound Pan Handle train, while alighting from his engine to receive orders at this station, fell under the tender and had both feet crushed off. Amputation of both limbs below the knees was undertaken, but he failed to rally from the shock and died at 7 a. m. He leaves a family.

A Wrong Diagnosis.

Kokomo, Ind., Aug. 4.—The little daughter of Mr. and Mrs. Louis Fenn of Taylor township died under peculiar circumstances. A physician diagnosed the ailment as diphtheria and administered anti-toxin, but a post mortem showed that the child had choked to death on a chicken bone.

Lightning Strikes a Church.

Shelburn, Ind., Aug. 4.—During a storm the steeple of the Christian church was struck by lightning, badly wrecking it and the south end of the building. There is no insurance.

THE WAR TAX

Imposed Only Upon Vessels Engaged in Foreign Trade.

Cleveland, Aug. 4.—The commissioner of internal revenue has rendered a decision in a letter addressed to Collector McCord of this city, relative to the construction of that part of the war revenue act under head of "Charter party," based upon an opinion of the attorney general in which it is held the tax is imposed only upon vessels engaged in foreign trade, and does not apply to vessels employed in domestic trade and trade on the great lakes with Canada as the word "registered tonnage."

Preparing For a Long Fight.

Cleveland, Aug. 4.—Both men and the company are preparing for a long fight in the strike of the wire combination's employees. The strikers announce that they will pursue a peaceful policy, remaining away from the mills and not congregating on the streets. The struggle will be mainly at the American works. A 10-foot heavy board fence is being put up around the American works, with wire strung on supports on top of it.

RUGGLES

CAMP MEETING.

July 28th to August 15th.

The meetings on these beautiful and much improved grounds will be held beginning July 28th and closing August 15th. Eminent divines will be present.

Rev. E. C. Buxton, D. D., of Louisville, Ky.; Rev. E. C. Buxton, D. D., of Avondale, O.; Rev. C. W. Barnes, D. D., of Wyoming, O.; and the ministers of the Covington and Ashland districts are expected to be present.

The quadrangle services will be on Thursday, August 4th, Rev. H. C. Northcott and others addressing the meeting.

The singing will be in charge of Prof. Crabbe, of Ashland, assisted by a splendid choir, which is an assurance that the music will be all that could be desired. A splendid addition has been made to the hotel, giving ample accommodations to all. The prominent grounds have been extended, a new stable built and many other improvements made, the grounds are beautiful, and best of all there is an abundance of pure water—two large cisterns, three wells, one of which is 150 feet deep
